PROFESSIONAL SUMMARY

Software Engineering undergraduate (B.Tech CSIT, 2023–2027), graduating June 2027 with a current CGPA of 8.787/10. Hands-on experience in full-stack development, system design, and RESTful API development. A Smart India Hackathon 2024 National Winner with proven experience leading a 5-member developer team, applying engineering best practices and coding standards, and supporting release planning across sprints. Proficient in Python, C++, SQL, and JavaScript, with AI/ML exposure (OpenCV, speech recognition) and interest in responsible AI use in financial technology. Collaborative, deadline-driven, and motivated to deliver scalable, reliable solutions in a fast-paced global technology team.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML/CSS, C/C++

Frameworks: React, Node.js, Express.js, Flask

Databases: PostgreSQL, MySQL, Prisma ORM

Data Analytics: SQL, MS Excel, Data Cleaning, Data Visualization, Dashboard Development

Core: DSA, OOP, DBMS, OS, CN, SDLC, REST APIs, Git, Agile, Debugging

PROFESSIONAL EXPERIENCE

Team Lead – Software Developer Intern | iSoftZone

- Lead a 5-developer team, contributing to system specification and design for PERN-stack applications on EventHub360, a live client event-management platform.
- Write high-quality backend code following engineering best practices and coding standards, translating client requirements into scalable solutions across the platform's 4 core modules.
- Support release planning and development for a 5-member team, reviewing code and resolving issues to ensure reliable, on-time delivery each sprint cycle.
- Apply Agile practices and Git-based version control across 2-week sprints, strengthening cross-functional collaboration and release consistency.
- Perform system modelling and develop backend modules using Node.js, Express.js, PostgreSQL, and Prisma ORM to support architecture and technical decisions across 4 core modules.
- Built and maintained 10+ REST API endpoints, providing ongoing support and maintenance to ensure application reliability, performance, and continuous improvement.

PROJECTS

- **Parsing Social Media Applications** (SIH 2024 – National Winner among thousands of competing teams nationwide): Built a Flask and SQL-based investigation platform to parse and analyze social media data for law-enforcement use cases.
- **EMS:** Developed a web-based system with **role-based access control (RBAC)** to manage employee records and ensure secure, permission-based access for administrators and employees. Deployed a live demo at ems-isoftzone.vercel.app.
- **WeekEarn:** Built a student employment portal spanning 3 core modules (secure authentication, REST APIs, and KPI dashboards) to connect students with part-time work opportunities.
- **Smart Helmet:** Designed an IoT-based rider safety system with real-time alerts and co-authored an accompanying research paper on the system's architecture.
- **EventHub360:** Developed scalable backend solutions and RESTful APIs across 4 modules (authentication, booking, guest, and vendor management) for a real-world event-management platform using Node.js, Express.js, PostgreSQL, and React.

LEADERSHIP & ACTIVITIES

Vice President, CODEC Club – led club initiatives and coordinated technical events for 100+ members.

Senior Student Placement Coordinator – supported placement drives, liaising between students and recruiting companies.

ACM Women Vice Chair | ACM Student Development Chair – organized ACM chapter programs and technical workshops.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science & Information Technology (CSIT), Symbiosis University of Applied Sciences | 2023–2027 | CGPA: 8.787/10

Certifications: AWS Cloud Foundations | Microsoft AI Skills Challenge | IBM AI | Infosys Agile | Infosys DBMS & SQL
